Investment Philosophy

We seek to invest in the fastest growing and highest quality companies in America. Large Cap Growth Strategy Overview

We invest in large cap companies that can sustain high rates of revenue and profit growth. Key attributes we look for in our holdings:

- Organic revenue growth faster than the benchmark index
- Companies that are addressing growing, large markets
- Differentiated product offering allowing market disruption and leadership
- Strong, defensible competitive position
- Generally profitable and expanding margins even as they grow rapidly
- Proven management team that can articulate a clear growth strategy

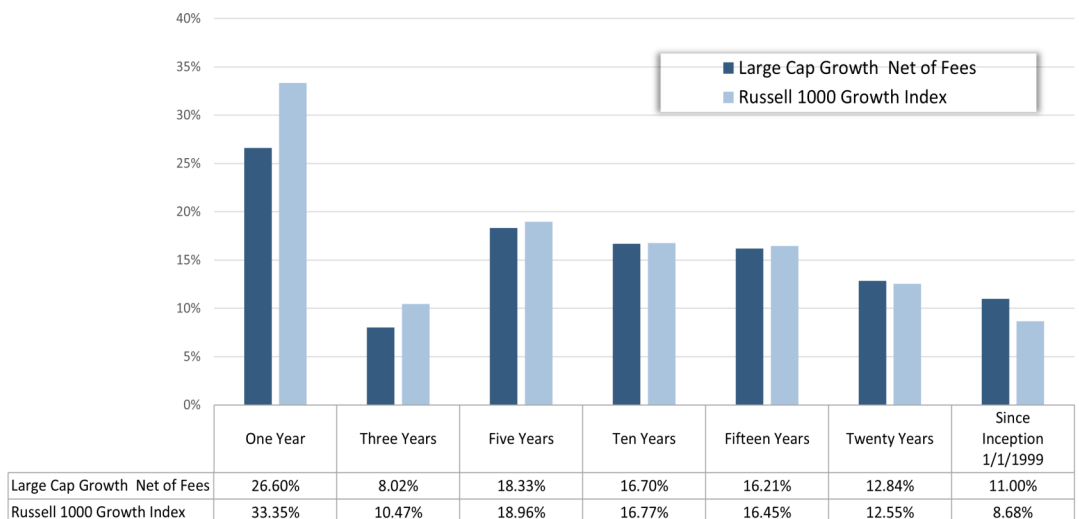

By investing in companies that have the potential to grow faster and more consistently than those in the benchmark we believe our portfolio will, over the long-term, perform better than the unmanaged index.
